You Look Nice
Do you ever wonder
what a giant anteater
looks like? Well if you do I
know a lot about them.
The giant anteater is 3 to
4 feet long. They have a long
tongue and snout. It is
brown and gray. They weigh

Nice and Cozy Places
Do you ever want to
know about where a
giant anteater lives? Well,
giant anteater live in grassy
wet lands. They sleep in
different places like
in logs, trees and in
moss.

65 to 140 pounds. It is a
mammal.

You can't Catch Me
I want to tell you
about what a giant
anteater's threat is, like
Jaguars and the vicious
black Caiman. Even Cougars
would also eat the giant
anteater.

Well, that's cool
only one more
chapter to go, fun facts.
I am going to tell you
more about the giant
anteater. So, anteaters have
4 inch long claws and
defend themse against
Jaguars and Coygars.

Also Giant anteaters Don't
show their pregnancy
much. after 2 months
mommy lets her baby go.
Anteaters use their long
tongue to get in to ant
holes and to get termites.
They sleep 15 hours per
day.
